9. ☐ Other \_\_\_\_\_

1. A Petition to proceed with the present Reissue Application by other than all the inventors was filed April 4, 2005. That petition was subsequently granted on April 15, 2005. However, in the meantime, papers were filed April 11, 2005 rendering the petition moot. As a properly executed Declaration by all of the inventors in this Application has been received, prosecution continues in this case.

2. The prior art noted on the attached PTO-892 forms includes all of the art cited on the front of U.S. Patent No. 5,891,212 but not previously cited in the present reissue application.

3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest a process for forming uniform sized and shaped spheres as claimed, and in particular does not disclose or suggest such a process in which a low viscosity liquid material is forced by pressure into an enclosed controlled low temperature solidification environment containing both first and second media as defined in independent claims 1, 16 or 31, or in which such a liquid material is forced into such an environment having both a top portion and bottom portion and in which a heat transfer medium is supplied to the top and bottom portions at two temperatures to establish a heat gradient within the environment as defined in independent claim 32.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1742
